Making the difference...

About Us

All types of natural turf and artificial grass supplied, installed and maintained.

Whether you're creating a new playing field, wildlife meadow, fine lawn or all-weather sports pitch - look no further than Vertas Grounds Design.

Vertas is the main agent in the east of England for Playrite synthetic grass. This means we cannot be beaten on price and our service comes with the technical support offered by our Playrite partner.

Our team of experts will work with you to achieve your goals and ensure the best possible outcome, irrespective of the size of budget.

Natural & Synthetic Turf

Offer 1

Free Site Visit

We will agree with you a convenient time to meet and discuss your needs and provide you with a free no obligation estimate.

Offer 2

Fully Designed Scheme

Working to your brief our trained and experienced designers will provide you with a fully scaled drawing using computer aided software.

Price is negotiable based on size and complexity of site.

Further reductions on price are available if other Vertas services are considered as part of the package.

Offer 3

Fully Designed & Installed Scheme

We're able to offer a design and installation service based on the agreed project scope.

Price is negotiable based on size and complexity of site.

Further reductions on price are available if other Vertas services are considered as part of the package.

Our approach explained

Client Brief

We will work to your verbal and / or written brief, checking that we have fully understood your requirements and provide you with a free no obligation estimate based on current market rates for materials, equipment and labour.

If after receiving our free estimate you would like us to take the idea to the next stage we will work with you to develop the project scope.

Project Scope

At this stage you may require our services to provide you with a fully designed scheme, with scaled drawings or a design and installation service.

Our tried and tested project scope will help identify and clarify those elements of the work that are fundamental to the successful delivery of the project, e.g. desired outcomes, communication channels, timescales for completion, etc.

Once we have agreed with you that the project scope successfully captures the desired work and outcomes, we will provide you with our firm and fixed quotation. Please refer to our Terms and Conditions above.

Project Management

On receipt of your official order and instructions to commence work, we will provide you with a project plan, highlighting key milestones.

Projects are managed by Vertas Grounds Design using Smartsheet, which you will be given free access to, should you wish, in order for you to keep abreast of progress.

What can you expect from the Vertas Natural Turf & Synthetic Grass Service?

What is included

- ✓ **Free Estimate** of costs to aid future decision making on the viability of your desired project
- ✓ **Firm Quotation** fixed for 60 days providing certainty over the cost of your project
- ✓ **Advice and work to industry standards**, Advice and work to industry standards, including relevant governing body rules and regulations, e.g. Football Association, etc.
- ✓ **Scaled drawings** that can be used to seek competitive tenders or used to simply illustrate the benefits of the scheme to colleagues and funding partners
- ✓ **Technically competent oversight** to ensure any new facility is installed in accordance with current industry standards
- ✓ **Compliance with Health & Safety, plus other relevant legislation**, e.g. CDM, as applicable and production of appropriate Risk / method Statements
- ✓ **Relevant insurance**, i.e. £5,000,000 public liability

The Team and how to contact them

Eddie Peters,
MSc, Cert Arb, DHE,
NEBOSH, QTRA

Eddie has over 30 years' experience in the public and private sector and can call upon his personal experience in managing and maintaining two golf courses, cricket pitches to County standards, winter sports pitches and a range of other ornamental natural turf areas, including a three year spell looking after the estate at RAF College Cranwell in Lincolnshire.

Before joining Vertas, Eddie held the position of Operations Manager at Ipswich Borough Council with direct responsibility for over 800 hectares of open space, including playing fields.

Eddie held the position of Outdoor Leisure Manager at Canterbury City Council and worked with a number of colleagues and partners to secure external funding that has enabled clients and customers to access external funding and make improvements to local sports facilities benefitting their communities.

John Taylor,
Cert Arb, IOSH

John has over 30 years' experience in the private and public sectors.

Over the last 9 years, John has been in his current role successfully delivering a number of new playing fields and multi-use games areas (MUGA's).

Philip Middleditch,
IOSH

Philip started his career working for a landscaping company based in Woodbridge, Suffolk. Having worked in Local

Government for over 39 years and worked on a variety of initiatives designed to improve local sports facilities; Philip can call upon considerable knowledge and experience when it comes to advising clients on the most cost effective approach to improving their existing playing fields.

Iain McFadyen,
BSc Landscape &
Amenity Management,
Dip Landscape
Construction, IOSH

Iain has worked in the landscape industry for over 20 years and has gained his experience working in both the private and public sectors across the UK.

Iain held the position of Parks Development Officer at the London Borough of Hammersmith & Fulham between 1998 and 2008, Grounds Maintenance Manager for English Landscapes and Landscape Technician for a well-known Suffolk company before joining Vertas (formerly EFMS) in 2015. Iain's highly developed skills in civil engineering and landscaping will ensure no detail is overlooked, when planning and installing your new all-weather surface.

Norman Perry,
IOSH, Cert Hort, HND
Visual Comms, Graphic
Design – Starpack Award.

A fully trained and successful landscape practitioner, Norman owned his own landscape design and installation business until joining Vertas in 2014.

His eye for detail and creative flair is put to good use when advising clients and customers about their options for making the most from available funds and budgets.
