Landscape Design & Installation Service

Making the difference...

About Us

We offer a bespoke landscape service tailored to your needs.

No job is too large or too small. Our team of experts will help you turn your ideas into reality.

Do you require help or assistance with the design and installation of:

-  Hard and soft landscaping
-  Fences and gates
-  Shelters and canopies
-  Car parks and footpaths
-  Playing fields and all-weather surfaces
-  Playgrounds and outdoor gym equipment

At Vertas, we pride ourselves in providing cost effective solutions to meet our customer's needs.

Our team of experts will work with you to achieve your goals and ensure the best possible outcome in design and installation.

Landscape Design & Installation Service

Offer 1

Free Site Visit

We will agree with you a convenient time to meet and discuss your needs and provide you with a free no obligation estimate.

Offer 2

Fully Designed Scheme

Working to your brief our trained and experienced designers will provide you with a fully scaled drawing using computer aided software.

Price is negotiable based on size and complexity of the site.

Further reductions on price available if other Vertas services are considered as part of the package.

Offer 3

Fully Designed & Installed Scheme

We're able to offer a design and installation service based on the agreed project scope.

Price is negotiable based on size and complexity of the site.

Further reductions on price are available if other Vertas services are considered as part of the package.

Our approach explained

Client Brief

We will work to your verbal and / or written brief, checking that we have fully understood your requirements and provide you with a free no obligation estimate based on current market rates for materials, equipment and labour.

If after receiving our free estimate you would like us to take the idea to the next stage we will work with you to develop the project scope.

Project Scope

At this stage you may require our services to provide you with a fully designed scheme, including scaled drawings or a design and installation service.

Our tried and tested project scope will help identify and clarify those elements of the work that are fundamental to the successful delivery of the project, e.g. desired outcomes, communication channels, timescales for completion, etc.

Once we have agreed with you that the project scope successfully captures the desired work and outcomes, we will provide you with our firm and fixed quotation. Please refer to our Terms and Conditions on the back page.

Project Management

On receipt of your official order and instructions to commence work, we will provide you with a project plan, highlighting key milestones.

Projects are managed by Vertas Grounds Design using Smartsheet (project management tool), which can be accessed at any time to provide progress updates.

What can you expect from the Vertas Landscape Design & Installation Service?

What is included

- ✓ **Free estimate** of costs to aid future decision making on the viability of your desired project
- ✓ **Firm quotation** fixed for 60 days providing certainty over the cost of your project
- ✓ **Advice and work to industry standards**, i.e. BS EN 1176 (playground equipment) and BS EN 1177 (playground safety surfacing) BS 4428: 1989 (code of practice for general landscaping operations), BALI (British Association of Landscape Industries).
- ✓ **Scaled drawings** that can be used to seek competitive tenders or used to simply illustrate the benefits of the scheme to colleagues and funding partners
- ✓ **Technically competent oversight** to ensure any new facility is installed in accordance with current industry standards
- ✓ **Compliance with Health & Safety, plus other relevant legislation**, e.g. CDM, as applicable and production of appropriate Risk / method Statements, Planning Approval, Ecological Audits, Wildlife & Countryside Act (1981), Natural Environment & Communities (NERC) Act 2016.
- ✓ **Relevant insurance**, i.e. £5,000,000 public liability

The Team and how to contact them

Eddie Peters,
MSc, Cert Arb, DHE,
NEBOSH, QTRA

Eddie has over 30 years' experience in public and private sector and during this time has been responsible for the successful delivery of a variety of landscape improvement schemes.

Before joining Vertas, Eddie held the position of Operations Manager at Ipswich Borough Council and was directly responsible for over 800 hectares of public open space and several major landscape improvement schemes. Eddie held the position of Outdoor Leisure Manager at Canterbury City Council and worked with a number of colleagues and partners to secure external funds that enabled a range of landscape improvements to be carried out over several years.

John Taylor,
Cert Arb, IOSH

John has over 30 years' experience in the private and public sectors.

Over the last 9 years, John has been in his current role successfully delivering a number of landscape projects, including the installation of play equipment and safety surfacing, replacement fencing, and soft landscaping across Suffolk.

Philip Middleditch,
IOSH

Philip started his career working for a landscaping company based in Woodbridge, Suffolk. Having worked in Local Government for over 39 years, Philip can call upon considerable

knowledge and experience when it comes to advising clients on the most cost effective approach to landscape installation.

Iain McFadyen,
BSc Landscape &
Amenity Management,
Dip Landscape
Construction, IOSH

Iain has gained his experience working in both the private and public sectors across the UK.

Iain held the position of Parks Development Officer at the London Borough of Hammersmith & Fulham between 1998 and 2008, Grounds Maintenance Manager for English Landscapes and Landscape Technician for a well-known Suffolk company before joining Vertas (formerly EFMS) in 2015. Iain possesses the skills and experience to provide the best possible advice to our clients and customers.

Norman Perry,
IOSH, Cert Hort, HND
Visual Comms, Graphic
Design – Starpack Award.

A fully trained and successful landscape practitioner, Norman owned his own landscape design and installation business until joining Vertas in 2014.

His eye for detail and creative flair is put to good use when advising clients and customers about their options for making the most from available funds and budgets.
